Curriculum vitae

Konstantinos Skian is currently a Postdoctoral Researcher at DaSciM, Ecole Polytechnique, Paris, where he also completed his Ph.D. thesis, supervised by Professors Michalis Vazirgiannis and Guillaume Wisniewski.

His main interests focus on Natural Language Processing, Machine Learning and Data Science in general. More specifically he has worked in novel representations, regularization & distances for text classification.

During his Ph.D. years, he has published and submitted high level papers in the most competitive conferences and workshops in the areas of machine learning and natural language processing, like EMNLP, NAACL and NeurIPS.

He has also participated in industrial projects with numerous companies and institutions, like AIRBUS, Paris School of Economics, ASIP Sante, INSERM and others.
