

ELOT/TC80/WG1 Terminology
Working Group of the Technical Committee
ELOT/TC80 Electromagnetic Compatibility

Chairman: K. Valeontis, valeonti@otenet.gr

January 2023

ELOT/TC80/WG1 «Terminology»

ELOT/TC80/WG1 “Terminology” was the Working Group No 1 of the Standardization Technical Committee ELOT/TC80 “*Electromagnetic Compatibility*”, which had operated under the Hellenic Organization for Standardization (ELOT), its terms of reference being to process the terminology of the Hellenic Standards of Electromagnetic Compatibility prepared by ELOT/TC80, but also to study systematically the EMC terminology.

Members of the Working Group:

- **Kostas Valeontis**, physicist, electronic-telecom engineer, *Chairman*
- **Nissim Benmayor**, Mechanical-Electrical Engineer (NTUA)
- **Dimitris Nikolopoulos**, Mechanical-Electrical Engineer (NTUA).

During its operation, 1996–2003, in 300 sessions, the group

- dealt with EMC terminology issues of TC80 and its WGs, as well as other TCs and WGs whose subject was *Terminology* or *Standardization*,
- particularly, processed and harmonized the vocabularies of terminology of 54 Hellenic Standards prepared by the TE80/WGs,
- had close cooperation with *TE-T (Technical Committee “Telecommunications”)* and with *MOTO (Permanent Group of Telecommunication Terminology)*, as well as with the *Hellenic Society for Terminology (ELETO)*,
- attended the results of the terminology work of *IEC/TC77/WG1 Terminology* and harmonized the Greek EMC terms with any changes applied to the International Standards concerning EMC terminology,
- had 6 editions of the *General and Special Terminology of Electromagnetic Compatibility* printed and disseminated by its chairman.

All terms produced by the Working Group have been imported into the termbase EMCTERM, by its chairman, who created the termbase for this purpose and who offered it to be uploaded on ELETO’s website for free public access.
